

/ Healthcare Management Minor at KU

CURRICULUM GUIDE

The Department of Health Information Management at KU Medical Center offers a minor in health care management which could complement your current major and enhance your resume. Flexible scheduling of courses in this minor work with any undergraduate major and its course scheduling

All courses are offered online through the KU Lawrence learning management system, and this minor is available to all KU undergraduate students.

WHAT IT IS

This 18-credit hour minor is designed to expand your knowledge of health care. KU's curriculum will train students on privacy, security, best practices in confidentiality, as well as related requirements for KU graduates working in health care careers.

TOPICS

Courses in this minor include healthcare reimbursement and financing, health information systems, healthcare management, legal aspects of healthcare and quality and performance improvement in healthcare.

COURSES

- HEIM 415 Healthcare Delivery Systems (3 credits)
- HEIM 567 Quality and Performance Improvement in Healthcare (3 credits)
- HEIM 585 Healthcare Reimbursement (3 credits)
- HEIM 570 Introduction to Healthcare Management
- HEIM 420 Legal Aspects of Healthcare
